### Discovery Package

Come experience the energy of Panama and the splendor of the Pearl Islands. Spend four days and three nights getting to know the place they call the Crossroads of the Americas. Once you get to Tocumen International Airport, leave the rest to us. Your personal pickup from the airport leaves nothing to chance. Regardless of the hour of your arrival, Viveros will escort you to your hotel, located just minutes away. Your hotel, which is included in your discovery package, is the Trump Ocean Club International Hotel, located in Panama City. The modern gym, spa, pool, and convenient hotel dining and bar will all exceed your expectations. Once you are settled in and comfortable, the other elements of your discovery come into play, all planned with you in advance. A tour of the Panama Canal is an easy trip to the Mira Flores locks at the Southern entrance to the Canal. Have lunch overlooking the boats of all sizes as they embark upon their 50 mile journey through the center of Panama.

Don't forget your camera as our driver takes you through Casco Viejo, one of the oldest sections of an ancient city with a rich history. Perhaps you would like a trip through one of the many international shopping malls or out to the causeway called Amador with views back to the city skyline that are impressive for even the most traveled visitors. As the sun sets into the Pacific, Panama City nightlife churns at a whole different level down on Calle Uruguay, a safe, fun, rocking place that is open late into the night. Fishing or Scuba diving may be your passion, and we can satisfy that appetite, too. Just ask and we will make the arrangements.
